

Martin Piegay

I am a young software engineer working in **Zenika** Lyon (FR). I code in Java, JavaScript and Golang using several frameworks like Spring or ReactJS ...

I feel concerned about quality of code and I do my best to improve it.

I believe in open-source, I recently contributed the new reverse proxy **Træfik**.

Experience

June 17 - Backend Software Development on Linkysup at **Enedis; **Zenika** Lyon (FR)**

Today

Developing a software for monitoring and remote controlling 35 millions of electricity meters installed at private individuals.

- Tech: Java 7, JUnit, AssertJ, Mockito, Spring, ZK, SQL/Oracle, Mybatis, Elasticsearch, Drools, Apache Kafka, Apache Flume, WebLogic, Maven, Git, Jenkins, Bitbucket, Jira, ...
- Methodology: Agile Scrum, auto organized team with 6 dev/devops and 5 functional coworkers, experiencing remote working, part of a 60-coworkers project.

Dec. 16 - Fullstack Software Development for Gattefosse; **Zenika Lyon (FR)**

June 17

Developing from scratch a business website which allows clients to manage medias, users, products and technical documents.

- Tech back : Java 8, Spring 4 (Security, Data JPA, MVC), Hibernate, Elasticsearch, JUnit, AssertJ, Mockito, Maven
- Tech front : JavaScript ES6, npm, Webpack, ReactJS with Redux, Jest/Jasmine, SASS, flexbox
- CMS : Wordpress with custom plugins
- Tech devops : Git, Gitlab with CI, Apache, MySQL, Ansible
- Methodology: Agile Scrum, 3 dev, 1 devops, remote clients

Sept. 16 - Fullstack Software Development for Grand Frais; **Zenika Lyon (FR)**

Dec. 17

Developing new features on the business specific software to manage product stock and daily deliveries from warehouse to stores, buying and billing.

- Tech back : Java 7, Spring 4 (Security, Data JPA, MVC), Hibernate, JUnit, AssertJ, Mockito, Gradle
- Tech front : JavaScript ES5, AngularJS, Jasmine
- Methodology: Agile Scrum, 4/5 dev

Feb. 15 - Golang Development on **Træfik; **Containous** - Lyon (France)**

Aug. 16

6-months end-of-courses internship on **Træfik**. Developing 2 packages which provide configuration interfaces for Golang programs:

- **Flæg**: Dynamic Command Line Interface

- **Stært:** Reads, Merges and Store configurations

Tech:

- Tech back : Golang 1.7
- Tech devops : Git, Github, Travis CI, Docker, Key/Value Distributed Databases
- Methodology: Open Source Projects, Code Reviews, Pull Requests, Startup

January 2015 **Sysadmin development;** **SAVE Diffusion** - Saint-Etienne (France)

- May 2015

Development of a network monitoring service (Shinken/Nagios) for a radio studio network.

- Tech : Linux server, network protocols (SNMP, Ping, ...), Shell, Perl and Python scripts.
- Methodology: Working in 4 students team. AGILE approach.

Education

2013 - 2016 **Engineering degree;** **Télécom Saint-Étienne** (FR)

Specialization in Computer, Network Sciences

2015 - 2016 **Erasmus student exchange;** **Czech Technical University in Prague** (CZ)

1 semester : MSc classes taught in English at the Faculty of Information Technologies

2011 - 2013 **2-year Initial Engineering Course;** **Télécom Saint-Étienne** (FR)

Double diploma course : Technological Degree in Electronics and Computer Engineering, University Diploma in Initial Cycle of Information Technologies of St-Etienne

Skills

Programming Languages

- Java SE/EE 7 & 8, JavaScript ES6, Golang, SQL, HTML5, CSS3

Backend Frameworks

- Spring(Boot, MVC, Data, Security), JPA, AssertJ, Mockito, ZK, Drools

Frontend Frameworks

- ReactJS, Redux, Jasmine/Jest, Fetch API, AngularJS, Bootstrap, SASS

DevOps and tools

- Git, Maven, NPM, Docker, MySql, Apache Kafka, Flume, Tomcat, WebLogic
- Jenkins, Github, Gitlab with CI, Bitbucket, Jira, IntelliJ, Wordpress

Methodologies

- Agile (Scrum), Code Reviews, Test Driven Development, Pair Programming

Others

- Human Languages:
 - French (native speaker)
 - English (professional)
- Hobbies:
 - Handball
 - Mountain(hiking, skiing, biking, climbing)
